Current Activities

As of December 22, 2006, the EPA has concluded screening for the month. We plan to resume collecting access agreements and screening properties on January 2, 2007. To date, EPA has obtained signed access agreements from 1280 properties, and 1069 of those properties have been screened. EPA plans to resume soil removal in the spring. Thirty-four properties have been identified and planned for removal at that time.

* The above accounting of expenditures is an estimate based on figures known to the OSC at the time this report was written. The OSC does not necessarily receive specific figures on final payments made to any contractor(s). Other financial data which the OSC must rely upon may not be entirely up-to-date. The cost accounting provided in this report does not necessarily represent an exact monetary figure which the government may include in any claim for cost recovery.
